**First Open International Students Programming Contest named in honour of S.A. Lebedev and V.M. Glushkov**

### KPI-OPEN

*Kyiv, 8 July 2006p. National Technical University of Ukraine «Kyiv Polytechnic Institute» conducts First Open International Students Programming Contest named in honour of S.A. Lebedev and V.M. Glushkov*

### KPI-OPEN

From 3rd till 8th of July National Technical University of Ukraine «Kyiv Polytechnic Institute» conducts First Open International Students' Programming Contest named in honour of famous scientists S.A. Lebedev and V.M. Glushkov KPI-OPEN.

The goal of the contest is to turn the society's attention to intellectual competitions among students, popularization of intellectual leadership and team spirit, increasing of professional level of talented youth, development of IT industry of Ukraine, as one of most important and challenging, development of intercampus relationships and establishing of personal contacts among students of different countries.

The Contest is conducted according to the international rules, supported by the Ministry of Education and Science of Ukraine, Cyber Centre of the National Academy of Sciences of Ukraine. In order to implement the core competition, the special software platform using modern development technologies was created by specialists of the Chair of Computing Technique of the National Technical University of Ukraine «KPI».

Important role was played by sponsors' support, namely - GIGABYTE TECHNOLOGY, Kvazar-Micro, ATI Technologies, Wnet.

Prize fund of the KPI-OPEN consists of authorized trainings program certificates from Learning Centre of Kvazar-Micro Corporation (Java Technologies and Software Development for J2EE platform), modern motherboards and video graphics adapters from GIGABYTE TECHNOLOGY, special prizes targeted on extension of students' knowledge and sharpening skills from the ATI company, subscription to the specialized magazines.

Wnet company, by means of advanced technologies, provided the participants of the Contest by quality broadband wireless Internet access, and implemented, first in Ukraine for such kind of events, on-line Internet broadcasting of all events of the Contest.

Support of the General Informational Sponsor – analytical magazine Computer Review weekly, and also Informational Partners – magazines Mobility, Gameplay, PC for Home, My Computer, My Gaming Computer, PC World Ukraine, Digital, T3, website ITC Online – influenced to a considered degree providing the Contest with wide echo among readers, strengthening the status of the KPI-OPEN and attracting teams from many regions.

During the opening ceremony the speeches from following people were declared: pro-rector of the National Technical University of Ukraine «KPI» G.B. Varlamov, representative of the Ministry of Education and Science of Ukraine – Mr. K.M. Levkivsky, representative of Cyber Centre of National Academy of Sciences of Ukraine – corresponding member of the National Academy of Sciences of Ukraine O. Perevozchikova, representatives of the organizational committee I. Plotnikov and O. Pasichny.

36 teams from Ukraine, Belarus, Russia and Poland participated in the competition. The winner of the KPI-OPEN 2006 is the PhisTech team from the National Technical University of Ukraine. Names of the winners are listed in Table 1.
